

DEVELOPMENT OF "PSYCHOTIC SYMPTOMS"

"Psychotic symptoms"

**Detouring from life tasks
Loss of interest in others & reality
Action to protect private world**

**"Lofty" fictional goal of superiority
(private logic as fact)**

**Faulty training leads to creation of
personal values "calling forth" psychosis**

**Personal chosen but unplanned decision
to discard common sense**

**Increased insecurity feelings
Feelings of inadequacy/inferiority
Inadequate preparation
for communal feeling**
